Organic & Vegan Foods

Monn bio

2022-23 PRODUCT CATALOG

ABOUT US

Hello there! We are Monn Bio, a family-owned brand that is passionate about creating delicious, organic, and vegan snacks. Established in 2019, we had a simple goal in mind: to offer snacks that are not only good for you but also taste amazing.

Our snacks are made using only the healthiest ingredients with nutritious grains and healthy oils. When it comes to sweeteners, we avoid the processed stuff and use concentrated apple juice instead of sugar. This is just one of the ways we are committed to creating clean-labeled, delicious snacks.

As manufacturers, we take great pride in ensuring that every snack we produce meets our high standards for quality. As a female-led company, we are proud to be part of a growing movement of women entrepreneurs making a difference in the food industry and in our community.

Monn bio

WHY MONN BIO?

- Certified organic products. No harmful pesticides, herbicides or GMO's.
- Suitable for vegans and also the ones who have milk and egg allergies.
- We are using concentrated apple juice as sweetener.
- We chose the right ingredients so the healthy choice becomes easy.
- Products do not contain artificial flavours and colours.
- Our products are suitable for children.

We chose the best ingredients to produce healthy foods without compromising taste. Certified to the highest standards we believe in well-being that starts with nutrition and healthy options to support healthy choices.
